International Journal of Production Research

Editor

Professor Roy J. Sury, Ph.D., C.Eng.
Department of Manufacturing Engineering, Loughborough University of Technology
Leicestershire LE11 3TU. U.K.

Associate Editor

John E. Middle M.Sc., C.Eng.
Department of Manufacturing Engineering
Loughborough University of
Technology

Reviews Editor

Geoffrey F. Modlen, Ph.D., C.Eng.
Department of Manufacturing Engineering
Loughborough University of
Technology

Editorial Board

Australia:	Dr. B. W. Jenney, Chisholm Institute of Technology, Victoria.
Canada:	Professor A. K. S. Jardine, University of Toronto.
	Professor M. Osman, Concordia University, Quebec.
Denmark:	Professor C. H. Gudnason, Danmarks Tekniske, Højskole, København.
France:	Professor G. Doumeingts, University of Bordeaux.
F.R. Germany:	Professor Dr.-Ing. H. Bullinger, Fraunhofer-IAO, Stuttgart.
	Professor Dr.-Ing. W. Laurig, Institut fur Arbeitsphysiologie, Dortmund.
	Professor Dr.-Ing. H. J. Warnecke, Fraunhofer-IPA, Stuttgart.
Hong Kong:	Professor N. N. S. Chen, University of Hong Kong.
Holland:	Professor W. Bakker, Twente University of Technology, Enschede.
Hungary:	Professor Dr. F. J. Lettner, Budapest Müszaki Egyetem, Gépipari Technológiai Tanszék, Budapest IX.
India:	Professor N. K. Tewari, Indian Institute of Technology, New Delhi.
Israel:	Professor E. Dar-El, Technion-Israel Institute of Technology, Haifa.
Japan:	Professor Y. Furukawa, Tokyo Metropolitan University, Tokyo.
	Professor K. Hitomi, Kyoto University/Beijing Institute of Technology.
	Professor R. Muramatsu, Waseda University, Tokyo 160.
Singapore:	Professor S. K. Leung, Nanyang Technological Institute.
Sweden:	Professor S. Axsäter, Luleå University of Technology.
United Kingdom:	Professor R. Bell, Loughborough University of Technology.
	Professor J. Burbidge, Cranfield Institute of Technology, Bedford.
	Professor E. N. Corlett, University of Nottingham.
	Professor J. Parnaby, Lucas Industries, Solihull.
	Professor D. S. Ross, University of Strathclyde, Montrose Street, Glasgow.
U.S.A.:	Professor G. Boothroyd, University of Massachusetts, Amherst.
	Professor N. Gaither, Texas A & M University, College Station.
	Dr. S. B. Gershwin, Massachusetts Institute of Technology, Cambridge.
	Professor K. Knott, The Pennsylvania State University.
	Professor E. Koenigsberg, University of California, Berkeley.
	Professor A. Kusiak, The University of Iowa.
	Professor A. Mital, University of Cincinnati, Ohio.
	Professor C. Moodie, Purdue University, West Lafayette, Indiana.
Yugoslavia:	Professor D. Zelenović, University of Novi Sad.
Founding Editor:	Professor N. A. Dudley.

International Journal of Production Research (ISSN 0020-7543) is published monthly by Taylor & Francis Ltd, 4 John Street, London WC1N 2ET, UK.

Annual Subscription 1989 £255, US$460.

Personal subscription 1989 to members of the Institution of Production Engineers: £40, US$80.
Personal subscriptions must be paid for by personal cheque or credit card.

Second class postage paid at Jamaica, New York 11431.

USA Postmasters: Send address changes to *International Journal of Production Research*, Publications Expediting Inc., 200 Meacham Avenue, Elmont, NY 11003.

Air freight and mailing in the USA by Publications Expediting Inc., 200 Meacham Avenue, Elmont, NY 11003.

Printed in UK by Taylor & Francis (Printers) Ltd, Rankine Road, Basingstoke, Hampshire RG24 0PR, UK.

Dollar rates apply to subscribers in all countries except the UK and the Republic of Ireland where the pound sterling price applies. All subscriptions are payable in advance and all rates include postage. Journals are sent by air to the USA, Canada, Mexico, India, Japan and Australasia at no extra cost. Subscriptions are entered on an annual basis, i.e. January to December. Payment may be made by sterling cheque, dollar cheque, international money order, National Giro, or credit card (Amex, Visa, Mastercard/Access).

Orders originating in the following territories should be sent direct to the local distributor.

Australia	R. Hill & Son Ltd, 117 Wellington Street, Windsor, Victoria 3181.
New Zealand	R. Hill & Son Ltd, Private Bag, Newmarket, Auckland 1.
India	Universal Subscription Agency Pvt. Ltd, 101–102 Community Centre, Malviya Nagar Extn Post Bag No. 8, Saket, New Delhi 110017.
Japan	Kinokuniya Company Ltd, Journal Department, PO Box 55, Chitose, Tokyo 156.
USA, Canada and Mexico	Taylor & Francis, Inc., 242 Cherry Street, Philadelphia, Pennsylvania 19106-1906.
UK and all other territories	Taylor & Francis Ltd, Rankine Road, Basingstoke, Hampshire RG24 0PR.

International Journal of Production Research

VOLUME 26, 1988—CONTENTS

No. 1 January 1988 — PAGE

The effect of imbalance in a just-in-time production system: A simulation study. B. R. SARKER and R. D. HARRIS ... 1

JIT purchasing as a quality and productivity centre. A. ANSARI and B. MODARRESS ... 19

Just-in-time in the plastics processing industry. L. E. RICHMOND and J. H. BLACKSTONE, JR ... 27

Filtered beam search in scheduling. PENG SI OW and T. E. MORTON ... 35

Simulation model for an individual robotic manufacturing cell. Y. D. NOH and B. HERRING ... 63

Material flow control in AGV/unit load based production lines. P. J. EGBELU and N. ROY ... 81

Robotic palletization of multiple box sizes. R. A. PENINGTON and J. M. A. TANCHOCO ... 95

Economic analysis of robotic arc welding operations. K. KNOTT, B. BIDANDA and D. PENNEBAKER ... 107

AIMSI: a prelude to a new generation of integrated CAD/CAM systems. H.-P. (BEN) WANG and R. A. WYSK ... 119

Towards socio-technical prototyping of work systems. P. KEMBER and H. MURRAY ... 133

A simplified design procedure for minimax sampling plans by attributes. H. OHTA and A. KANAGAWA ... 143

A pseudo-boolean approach to determining least cost tolerances. S. H. KIM and K. KNOTT ... 157

Book Reviews ... 169

No. 2 February 1988

A LISP-based controller for free-ranging automated guided vehicle systems. F. TAGHABONI and J. M. A. TANCHOCO ... 173

Clustering algorithms for order picking in an automated storage and retrieval system. H. HWANG, W. BAEK and M.-K. LEE ... 189

Economic design of product specifications for a complete inspection plan. K. TANG ... 203

PAGE

A biomechanical modelling of body weight effects on a manual lifting task. B. C. JIANG and C. M. WU 219

Flexibility in manufacturing systems: definitions and Petri net modelling. M. BARAD and D. SIPPER 237

Efficient heuristics for dynamic lot sizing. K. ZOLLER and A. ROBRADE ... 249

Modelling the effects of learning and job enlargement on assembly systems with parallel lines. A. K. CHAKRAVARTY and A. SHTUB 267

Computer aided dimensional planning. T. XIAOQING and B. J. DAVIES ... 283

The efficiency of M groups of N machines served by a travelling robot: comparison of two models. B. D. BUNDAY and W. K. EL-BADRI ... 299

The effects of manufacturing progress function on machine requirements and aggregate planning problems. A. R. BEHNEZHAD and B. KHOSHNEVIS ... 309

Book reviews 327

No. 3 March 1988

Special Issue on Production Planning and Control

Guest Editorial 331

An approach to computer integrated production management. K. ANDO, A. TAKESHIGE and H. YOSHIKAWA 333

Integrated material logistics and continuous flow manufacturing. K. BEAL . 351

Theory and practice of load-oriented manufacturing control. W. BECHTE ... 375

Beavers—changing to low inventory manufacturing. J. BOOTH 397

Production activity control—a key aspect of production control. J. BROWNE 415

Operation scheduling with GT and PBC. J. L. BURBIDGE 429

Computerized shop floor scheduling. E. M. GOLDRATT 443

Cyclic scheduling for improvement. R. W. HALL 457

Integrated production, inventory and distribution systems. K. ISHII, K. TAKAHASHI and R. MURAMATSU 473

A systems approach to the implementation of JIT methodologies in Lucas Industries. J. PARNABY 483

Throughput time control. G. W. PLOSSL 493

Production in the factory of the future. K. R. PLOSSL 501

Flexible design of production planning systems. A. ROLSTADÅS 507

Just-in-time production in West Germany. H. WILDEMANN 521

Period batch control and group technology. D. M. ZELENOVIC and Z. M. TESIC 539

No. 4 April 1988 PAGE

Medium term production planning with minimum lotsizes. H. STADTLER 553

An experimental study of human decision-making in computer-based scheduling of flexible manufacturing system. N. NAKAMURA and G. SALVENDY 567

Quasi on-line scheduling procedures for flexible manufacturing systems. J. SLOMP, G. J. C. GAALMAN and W. M. NAWIJN 585

A framework for intelligent assembly in industry. D. MÂNDUŢIANU and S. VOINEA.. 599

Determination of an optimal common due date and optimal sequence in a single machine job shop. C. R. BECTOR, Y. P. GUPTA and M. C. GUPTA ... 613

The potential of reconstructability analysis for production research. G. J. KLIR, M. MARIANO, M. PITTARELLI and K. KORNWACHS 629

A model for lot sizing and sequencing in process industries. V. L. SMITH-DANIELS and L. P. RITZMAN 647

Graphical techniques for planning changes in production capacity. R. W. HALL 675

An improved algorithm to approximate the behaviour of flow lines. M. B. M. DE KOSTER 691

Book Reviews 701

No. 5 May 1988

Special Issue on AI in Manufacturing

Guest Editorial 705

Knowledge-based robotics. A. C. KAK, A. J. VAYDA, R. L. CROMWELL, W. Y. KIM and C. H. CHEN 707

A framework for CAD-based geometric reasoning for robot assembly language. B. O. NNAJI 735

Object oriented programming in production management—two pilot systems. J. ALASUVANTO, E. ELORANTA, M. FUYUKI, T. KIDA and I. INOUE 765

An object-oriented knowledge representation for hierarchical real-time control of flexible manufacturing. M. I. BU-HULAIGA and A. K. CHAKRAVARTY 777

OPAL: A multi-knowledge-based system for industrial job-shop scheduling. E. BENSANA, G. BEL and D. DUBOIS 795

Knowledge-based scheduling in flexible manufacturing systems: An integration of pattern-directed inference and heuristic search. M. J. SHAW 821

PAGE

An intelligent cell control system for automated manufacturing. P. O'GRADY and K. H. LEE 845

Expert process planning system with solid model interface. S. JOSHI, N. N. VISSA and T.-C. CHANG 863

EXGT-S: A knowledge based system for group technology. A. KUSIAK ... 887

Application of expert systems and pattern recognition methodologies to facilities layout planning. S. R. T. KUMARA, R. L. KASHYAP and C. L. MOODIE 905

Intelligent control schemes for automated storage and retrieval systems. A. SEIDMANN 931

Knowledge based simulation techniques for manufacturing. R. E. SHANNON 953

Fuzzy non-linear programming: Theory and application in manufacturing. J.-F. C. TRAPPEY, C. R. LIU and T.-C. CHANG 975

A prototype expert system for selecting control charts. C. H. DAĞLI and R. STACEY 987

List of Reviewers 997

No. 6 June 1988

A knowledge-based approach for automated process planning. H.-P. (BEN) WANG and R. A. WYSK 999

Master production scheduling, customer service and manufacturing flexibility in an assemble-to-order environment. B. E. KING and W. C. BENTON ... 1015

A proposed theoretical framework for design of decision support systems in computer-integrated manufacturing systems: A cognitive engineering approach. J. SHARIT, R. EBERTS and G. SALVENDY 1037

Predicting future developments in flexible manufacturing technology. P. L. PRIMROSE and R. LEONARD 1065

A dynamic job-assignment policy. WE-MIN CHOW 1073

General flow-shop scheduling with resource constraints. A. JANIAK ... 1089

Using the Kanban in a job shop environment. M. GRAVEL and W. L. PRICE 1105

An extension of Palmer's heuristic for the flow shop scheduling problem. T. S. HUNDAL and J. RAJGOPAL 1119

Quality control of an unreliable random FMS: with Bernoulli and CSP sampling. C. S. TAPIERO and L.-F. HSU 1125

Book Reviews 1137

No. 7 July 1988 PAGE

Designing the closed loop elements of a material requirements planning system in a low volume, make-to-order company (with case study). D. McAreavey, J. Hoey and R. Leonard 1141

A framework for the design of cellular manufacturing systems. F. Choobineh 1161

Event-driven model of unreliable production lines with storage. H. D'Angelo, M. Caramanis, S. Finger, A. Mavretic, Y. A. Phillis and E. Ramsden 1173

An improved branching scheme for the branch and bound procedure of scheduling n jobs on m parallel machines to minimize total weighted flowtime. S. C. Sarin, S. Ahn and A. B. Bishop 1183

Dispatching in a multistage job shop where machine capacities are unbalanced. T. D. Fry, P. R. Philipoom and R. E. Markland ... 1193

Analysis and design of an integrated material handling system. B. Pourbabai 1225

Economic ordering policy for jointly replenished items. S. K. Goyal ... 1237

Adaptive scheduling: the use of dynamic due dates to accommodate demand variance in a make-for-stock shop. N. S. Adshead and D. H. R. Price 1241

Determination of batch sizes in multi-product, multi-stage situations and assessment on capacity utilization. S. K. Mukhopadhyay, K. P. Malik and M. Paul 1259

Technical note. A warning about cyclic lot scheduling with sequence dependent set-up times. M. W. Carter, M. J. Magazine and T.-S. Moon 1281

Book Reviews 1285

No. 8 August 1988

An information-theoretic approach to classifying sensory inspectors. H. Ohta and I. Arizono 1289

An integrated production-inventory model with reprocessing and inspection. G. K. Tayi and D. P. Ballou 1299

Selection of drilling conditions for glass fibre reinforced plastics. N. N. Z. Gindy 1317

Approximations for the time spent in a dynamic job shop with applications to due-date assignment. J. G. Shanthikumar and U. Sumita 1329

A simulation study of multiple-load-carrying automated guided vehicles in a flexible manufacturing system. M. Ozden 1353

Some observations on the bowl phenomenon. W. W. Thompson, Jr and R. L. Burford 1367

The sequencing of point operations on a CNC-machining centre using a microcomputer. J. J. Bisschop, H. Stegeman and M. E. A. Striekwold 1375

Determination of maintenance floats using Buzen's algorithm. C. N. Madu 1385

Computerized design and manufacturing of plate cams. A. C. Lin, H. Chan and H.-P. (Ben) Wang 1395

Book Reviews 1431

No. 9 September 1988 PAGE

Optimal planning and scheduling of assembly lines. E. M. DAR-EL and M. RABINOVITCH 1433

A part-feature recognition system for rotational parts. RONG-KWEI LI ... 1451

Determination of single-sampling-attribute plans based on membership functions. H. OHTA and H. ICHIHASHI 1477

Ordering scheduling problem in manufacturing systems. R. CONTERNO and Y. C. HO 1487

Configuring cellular manufacturing systems. H. C. CO and A. ARAAR ... 1511

Look-ahead scheduling for minimizing machine interference. C. P. KOULAMAS and M. L. SMITH 1523

Critical rake angle and cutting forces prediction in the orthogonal cutting of polymers. N. N. Z. GINDY 1535

A study on the determination of actual cutting time in NC turning. J. W. LEE 1547

A study of JIT implementation and operating problems. K. M. CRAWFORD, J. H. BLACKSTONE JR and J. F. COX 1561

Book Reviews 1569

No. 10 October 1988

Guest Editorial 1571

CAD and Video Somatography: A liaison for creating ergonomic work systems. H.-J. BULLINGER, D. LORENZ and W. BAUER 1573

Intelligent tool monitoring for machining. H.-J. JACOBS, B. HENTSCHEL and B. STANGE 1579

Application of a computer-based approach to designing real-time control software for an integrated robotic assembly and automated storage/retrieval system. W. R. TERRY, H. G. RAO, and J. Y. SON 1593

The optimal operation planning of Kanban to minimize the total operation cost. S. MIYAZAKI, H. OHTA and N. NISHIYAMA 1605

A new active error compensatory method of machinery accuracy. K. KIM 1613

Automated tool-wear monitoring and tool changing using intelligent supervisory control. L. A. KENDALL and A. BAYOUMI 1619

A new method of diagnosing the regenerative chatter in machining operations. Y. JUNYI and W. BODA 1629

DOPP—dynamically optimized production planning. A. VILLA and M. ARCOSTANZO 1637

TAHA processing of a 6201 aluminium alloy. M-T. JAHN 1651

Grinding process supervision via information distance measure. L. QU and G. XU 1657

PAGE

Optimization of the creep-feed grinding process. R. CEBALO 1665

Expert system for autonomous handling of elementary assembly operations. P. LEVI, J. MAJUMDAR and B. WILD 1671

Industrial case-study on the dynamics and sensitivity of a close-coupled production-distribution system. J. EDGHILL, C. OLSMATS and D. TOWILL 1681

Strategic decisions in manufacturing—on the choice of investments in flexible production organizations. P. LINDBERG, J. LINDÉR and C. TUNÄLV ... 1695

Methodology of rational choice of machining processes. R. KOLMAN ... 1705

Call for papers 1711

No. 11 November 1988

Quality costs: a critique of some 'economic cost of quality' models. J. J. PLUNKETT and B. G. DALE 1713

A study on multi-aisle system served by a single storage/retrieval machine. H. HWANG and C. S. KO 1727

Dynamic control in automated manufacturing: a knowledge integrated approach. J. G. MALEY, S. RUIZ-MIER and J. J. SOLBERG 1739

Increasing the production rate of a just-in-time production system with variable operation times. R. VILLEDA, R. DUDEK and M. L. SMITH 1749

Minimum energy criterion applied to the orthogonal machining of polymers. N. N. Z. GINDY 1769

The 'linguistic pattern' method for a workstation layout analysis. J. GROBELNY 1779

Risk and assessment of investment in new technology. B. B. HUNDY and D. J. HAMBLIN 1799

A closed form solution for the $G/M/r$ machine interference model. B. D. BUNDAY and E. KHORRAM 1811

Performance obstacles for direct and indirect labour in high technology manufacturing. K. A. BROWN and T. R. MITCHELL 1819

Top-down versus bottom-up forecasting strategies. A. B. SCHWARZKOPF, R. J. TERSINE and J. S. MORRIS 1833

Book Reviews 1845

No. 12 December 1988

Warehouse capacity in a stochastic environment. M. J. ROSENBLATT and Y. ROLL 1847

Planning for idle time: A rationale for underutilization of capacity. T. D. FRY and J. H. BLACKSTONE, JR 1853

PAGE

Surface finish prediction models for fine turning. A. MITAL and M. MEHTA 1861

Occurrence based service-level constraints during a fiscal period. C. HAEHLING VON LANZENAUER 1877

The part mix and routing mix problem in FMS: a coupling between an LP model and a closed queueing network. L. H. AVONTS and L. N. VAN WASSENHOVE 1891

Flexible assembly systems: an approach for near real-time scheduling and routing of multiple products. M. DONATH and R. J. GRAVES 1903

Computerized roundness inspection. S. YERALAN and J. A. VENTURA ... 1921

On optimal and approximate policies for a multistage production/inventory problem. F.-Y. DING and T. J. HODGSON 1937

A pattern-recognition-based method for controlling a multi-loop production system. T. ADACHI, C. L. MOODIE and J. J. TALAVAGE 1943

Allocating buffer storages in a pull system. K. C. SO and S. C. PINAULT ... 1959

Book reviews 1981

List of Referees 1987/8 1983

Index of Authors (with titles) 1989
